SUMMARY

Software Engineer with 5+ years of experience delivering scalable web applications across academic, fintech, and business domains. Strong expertise in backend and frontend development, REST APIs, cloud environments, and clean architecture. Proven ability to lead technical decisions, support production systems, and collaborate with cross-functional teams.

EXPERIENCE

Full Stack Developer — Pontifical Catholic University of Paraná (PUC-PR) | Jun 2024 – Present

- Acted as part of a development team building new academic applications for external users and internal departments, acting as project head and leading technical decisions.
- Provided maintenance and support for academic systems hosted on Microsoft Azure, ensuring stability, availability, and incident resolution.
- Collaborated closely with UX designers and business stakeholders to translate requirements into reliable, user-focused solutions.

Software Engineer — Trio Tecnologia de Pagamentos | Mar 2024 – May 2024

- Developed internal tools to improve customer support workflows and operational efficiency.
- Supported high-availability payment systems, working directly with enterprise customers (N1 support).

Full Stack Developer — Fluxo Business Automation | Jan 2023 – Feb 2024

- Core contributor to the SX Framework supporting multiple business applications.
- Built reusable frontend components and developed REST APIs backed by MySQL databases.
- Managed Git workflows, versioning, and production deployments.

iOS Programmer — E-motion | May 2022 – Nov 2022

- Developed a motion capture mobile application using Swift for iOS.

Front-End Developer — Printer do Brasil | Dec 2021 – Mar 2022 (Part-time)

- Implemented new interface features and bug fixes in collaboration with QA analysts, improving interface stability and usability.

Front-End Developer — Fluxo Business Automation | Apr 2021 – Nov 2021 (Part-time)

- Developed improvements and new features for internal web systems.
- Worked closely with backend services to deliver consistent frontend functionality.
