

AUGUSTO FOSS SILVA

Software Engineer | Full Stack Developer | Brazil | Open to Remote Work

augustfs9@gmail.com | +55 41 99806-5639 | linkedin.com/in/augusto-foss-silva-6053491ba/

PROFESSIONAL SUMMARY

I am a Software Engineer and Full Stack Developer with 5+ years of experience building and supporting web applications across academic, fintech, and business domains. I hold a B.Sc. in Software Engineering (2018 - 2021) and am currently pursuing a postgraduate degree in Software Engineering, DevOps, and Digital Transformation (2025 - 2026), both at PUC-PR. Driven by challenges and continuous learning, I work across backend and frontend to deliver complete, scalable solutions aligned with user needs. Colleagues recognize me for my dedication, organization, clear communication, and commitment to quality, as well as my willingness to share knowledge, mentor developers, and lead technical decisions responsibly. I aim to deliver consistent results while contributing to a collaborative, open, and respectful team environment.

SKILLS

PHP, Laravel, Java, Python, JavaScript, Node.js, Vue.js, React, REST APIs, MySQL, Docker, Microsoft Azure, Git, Linux

EXPERIENCE

Full Stack Developer | Pontifical Catholic University of Paraná (PUC-PR) | Jun 2024 - Present

- Led technical decisions and the development of new academic applications for external users and internal departments, serving as project lead.
- Maintained and supported academic systems hosted on Microsoft Azure, ensuring stability, availability, and incident resolution.
- Collaborated with UX designers and business stakeholders to translate requirements into reliable, user-focused solutions.

Software Engineer | Trio Tecnologia de Pagamentos | Mar 2024 - May 2024

- Developed internal tools that improved customer support workflows and operational efficiency.
- Provided N1 support for high-availability payment systems, working directly with enterprise customers.

Full Stack Developer | Fluxo Business Automation | Jan 2023 - Feb 2024

- Core contributor to the SX Framework, which supported multiple business applications.
- Built reusable frontend components and developed REST APIs backed by MySQL databases.
- Managed Git workflows, versioning, and production deployments.

iOS Programmer | E-motion | May 2022 - Nov 2022

- Developed a motion capture mobile application using Swift for iOS.

Front-End Developer | Printer do Brasil | Dec 2021 - Mar 2022 | Part-time

- Implemented new interface features and bug fixes with QA analysts, improving interface stability and usability.
- Worked closely with backend services to deliver consistent frontend functionality.

Front-End Developer | Fluxo Business Automation | Apr 2021 - Nov 2021 | Part-time

- Developed improvements and new features for internal web systems.
- Worked closely with backend services to deliver consistent frontend functionality.
